

About Data :

Delhivery is the largest and fastest-growing fully integrated player in India by revenue in Fiscal 2021. They aim to build the operating system for commerce, through a combination of world-class infrastructure, logistics operations of the highest quality, and cutting-edge engineering and technology capabilities. The Data team builds intelligence and capabilities using this data that helps them to widen the gap between the quality, efficiency, and profitability of their business versus their competitors.

Purpose

The company aims to comprehend and process data emerging from data engineering pipelines, undertaking tasks such as cleaning, sanitizing, and manipulating data to extract valuable features from raw fields. The overarching objective is to derive actionable insights from raw data, thereby aiding the data science team in constructing accurate forecasting models
